

California OES Weather Threat Briefing

November 2, 2018
9:00 AM PDT

Day 1 Primary Hazards: No significant impacts expected Friday.

National Weather Service
Western Region Headquarters
Regional Operations Center
Salt Lake City, UT

Key Points

11/02/18 - 11/08/18

Friday

- No Significant impacts expected at this time

Saturday - Wednesday

- Moderate to locally strong offshore flow (Winds from the Northeast) across the Inland and southern Coastal Regions developing after midnight Friday and continuing through early Sunday morning will create areas of elevated to locally critical fire weather conditions
 - Strongest winds expected early Saturday
- Brief periods of elevated fire weather conditions also possible Saturday in the Lower Colorado River Valley western portions of the Southern Region
- Otherwise, no significant impacts expected at this time as no precipitation is expected statewide through Wednesday.
